

25X1

3 September 1946

Country: Germany/Russian Zone

Subject: Red Army Airfields and Air Activity

25X1

1. There has been a noticeably heavy reinforcement of air corps personnel in the Russian Zone of Germany.
2. Intensive air traffic has been observed at Altenburg (E17) and Schleifitz (E12) airfields. Twenty-five fighter planes are being used for training at Altenburg.
3. The large airfield at Bad Koesen (J78), west of the road to Weimar, is now being used for agricultural purposes.
4. Brandis (E31) airfield, which is practically intact, is being used by a large armored unit with about 600 tanks.
5. The Leipzig-Mockau (E21) airfield is being hurriedly repaired. Many training flights were observed over Leipzig in July.
6. An airfield is being constructed at Wernigerode (D16).
